Extra's: user friendly, strong in use, 2-tone effect

Article Information

Collection Wash is leather with the classic wish effect. Due to finishing off the basic colour with a dark shade and subsequently polishing the leather by hand, makes this into a "two-toned" leather. This gives the article a special appearance, which can also be described as the "English Look". Available in both traditional and trendy colours. A very equal and constant material, extremely suitable for intensive use (both project-based and residential usage). This leather is finished with a dirt-resistant layer. All 9 colours are available from stock, from half a hide.
