Article Information

Collection Misto is a protected aniline type of leather, made on the best cowhides. A natural flat grain is created by a special drying process. Collection Misto is vegetable re-tanned, this makes the leather a bit stiffer in fibre but super soft in grip. This combination makes this leather unique. Natural features are visible and are a beautiful part of this leather, therefore these characteristics must be processed visibly. The 13 colours are available from stock, from half a hide.
