Extra's:	flat grain pattern, aniline leather with wax

Article Information

Collection Waxx-Select is aniline leather with a special wax on top, made on the best selected cowhides. The combination between 2 natural products, the hide of a cow and beeswax, makes this a very special type of leather. To emphasize nature, natural characteristics should be experienced as an addition to this collection, these characteristics must be visibly processed. A leather type extremely suitable for bags, leather goods and the residential market. Beautiful leather, with a user manual.

Please note that one of the characteristics of this aniline leather is the (possible) colour difference within a batch or even within a hide. Collection Waxx-Select is available from stock, from half a hide.
